

Staff members to visit the Mining Indaba By Deborah Spicer

Three Venmyn staffmembers will be available at the Mining Indaba in Cape Town from the 6th to the 9th of February to further cross- and intra-continental business relationships.

Venmyn MD Andy Clay, Director Neil McKenna and Mineral Project Analyst Iaan Myburgh, in addition to touching base with existing clients, welcome meeting with other mineral and oil and gas companies, investors, financial institutions and governments that are keen to discuss technical or economic aspects of mineral and oil and gas projects.

Venmyn believes that the Mining Indaba is an ideal forum to meet with companies that require the expertise of a firm that specialises in the valuation and the technical evaluation of mineral projects in Africa.

Appointments at the Indaba with McKenna, Myburgh and Clay can be arranged by contacting +27 11 783 9903 or info@venmyn.com
